### **PressurePro Chosen as TPMS Provider for Orange EV Pure Electric Terminal Trucks Leaders in TPMS to provide advanced monitoring options for revolutionary zero-emission trucks.**

**Harrisonville, MO: August 15, 2016:** Advantage PressurePro, world leaders in commercial Tire Performance Management Solutions, is proud to announce that they have been selected as the chosen TPMS provider to Orange EV's line of electric terminal trucks. Headquartered in Riverside, Missouri, Orange EV designs and manufactures innovative, pure electric, zero-emission, industrial strength vehicles. Offering vehicles that meet the harsh demands of industrial settings while lowering the cost of ownership and decreasing environmental impact, Orange EV further expands their benefits and features by adding PressurePro's full TPMS capabilities for users.

"We like and appreciate the Pressure Pro team and its industry-leading TPMS system. They've both done a great job for us" said Kurt Neutgens Orange EV's Chief Technology Officer. "Pressure Pro has been very approachable and helpful in integrating their TPMS solution in Orange EV's new and remanufactured electric terminal trucks."

Orange EV's electric terminal trucks are the first commercially deployed, 100% electric, Class 8 vehicle.

"PressurePro is ecstatic to be chosen as the TPMS providers for Orange EV and their electric terminal trucks," stated Vanessa Hargrave, PressurePro's Chief Marketing Officer. "This not only offers us the opportunity to work with a fellow, innovative Kansas City based company, it allows us join in Orange EV's mission to provide industrial vehicles to the market that not only decrease operational cost, but also reduce their environmental footprints. Trucks that are better for our environment and a fleet's bottom line. It's a clear win-win for the industry and we're excited to take part by providing our advanced tire performance management solutions to such forward looking partners and end-users."

###

**About Advantage PressurePro™, LLC:** Advantage PressurePro is the developer and marketer of the PressurePro line of Tire Pressure Monitoring Solutions. The leading aftermarket TPMS system worldwide, PressurePro has been involved in the industry since 1991 and is renowned as the pioneer in the TPMS market. With a reputation for reliability, durability, accuracy and ease of use of their solutions, PressurePro remains the only TPMS manufacturer that provides American Made product. The only TPMS provider to offer numerous advanced monitoring options, PressurePro was the first TPMS Company to add communications capabilities across their product line, bringing to life remote monitoring options alongside of the world's leading Telematics products. PressurePro also remains the only TPMS provider to offer fully automated drop-and-hook applications and data logging abilities. Trusted by customers worldwide, PressurePro remains committed to providing savings and safety for drivers worldwide.
